

APR2 Status for Sep 2 Post Flight

Submitted by **durden** on Sat, 09/04/2010 - 10:53

- **APR-2**
- **Earl**

Flight Date:

Thursday, September 2, 2010

Sortie Number:

10-06-13

APR-2 collected a complete dataset over a weakening Hurricane Earl. We saw evidence of both concentric eyewalls in some areas and no eyewall at all in other areas. There were no problems with the instrument - it is ready for the next flight.

Status:

Green
